The India adhesives and bonding market was valued at USD 1,100 million in 2021, and it was expected to grow at a CAGR of about 8 per cent till 2027.

The market is majorly pushed by the increasing demand from the packaging industry, the growing construction industry, and the electrical and electronics industry. India's adhesives and bonding industry is segmented by technology (water-borne, solvent-borne, reactive, hot melt, and others). It is also based on end-user industry (building and construction, paper and packaging, woodwork, transportation, footwear and leather, healthcare, electrical and electronics, and others).

Ace Exhibitions organises India Adhesives & Bonding Expo 2022 to facilitate the manufacturers of adhesives and bonding materials, raw materials, process equipment, and those who are into technologies for the bonding industry, automotive, transportation, aerospace, machinery, construction, consumer appliances, furniture and packaging, and others.

India Adhesives & Bonding Expo 2022 is where you can connect with thousands of buyers from across the technical supply chain and end-user markets. The show offers a platform where you can meet the complete supply chain of the adhesives and bonding industry. The show is the most apt platform to learn about the latest opportunities in the market, and the updated bonding processes along with the automated systems.

This trade show will focus on the major developments in the industry, and will bring together under one roof significant solutions and innovative technologies in the adhesives, sealants and bonding market.

The three-day event offers an exclusive opportunity for manufacturers, suppliers, distributors and service providers to showcase their latest products and innovations, develop their business and distribution network, and also expand into new markets. The show provides the chance to source products and solutions from across India.
